

Psychiatric Nursing Graduate Student Mobility between Alberta and British Columbia

The College of Registered Psychiatric Nurses of Alberta (CRPNA) and The College of Registered Psychiatric Nurses of British Columbia (CRPNBC) have agreed on removing barriers to mobility for graduate psychiatric nursing students. In keeping with common practices among nursing organizations across Canada and acting in good faith the CRPNA and the CRPNBC have agreed to accept upon notification of successful program completion graduate students from an approved school of psychiatric nursing to apply for initial registration.

The graduate student **must** notify the registering body in their jurisdiction/Province of intent to seek registration in another jurisdiction/Province. Once confirmation of successful completion of the educational program is received by the regulatory body, a letter will be sent to the neighbouring jurisdiction indicating the student will be seeking to enter the registry in that jurisdiction and they have successfully completed a program of study in Psychiatric Nursing and are now eligible for application to that jurisdiction including the Registration Examination.

The successful graduate will be responsible for application to the neighbouring jurisdiction/Province and must comply with all applicable registration requirements of that jurisdiction/Province.
